Every Truck and Dry Van received a PM service every 20K Miles,
Every Reefer unit receive service every 1K hrs.

REEFER TRAILER

A refrigerated or reefer trailer's maximum freight weight is 44,000 pounds

What is a reefer trailer?

Reefer trailers are designed to maintain a specific temperature to keep your cargo fresh on arrival. Refrigerated trailers are used for perishable cargo, such as fruit and vegetables, that needs to arrive in prime condition.

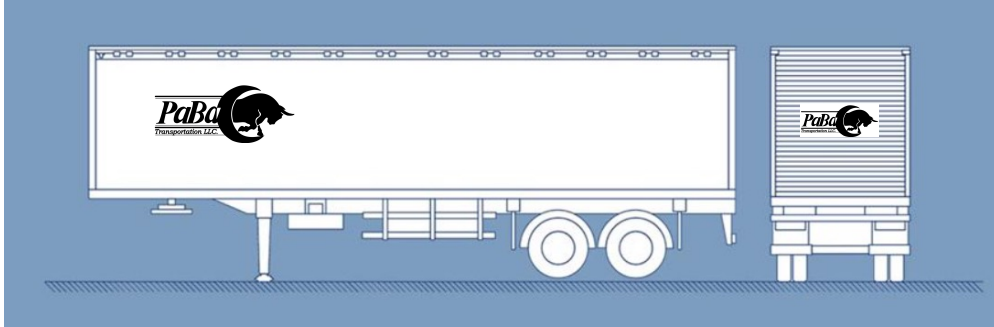

•Refrigerated or Reefer Maximum Freight Dimensions:

- Max length 48 ft. - 53 ft.
- Max width 8 ft.
- Max height 9 ft.

DRY VAN TRAILER

A dry van's maximum freight weight is 42,000 to 45,000 pounds.

What is a dry van trailer?

Dry vans can handle different types of cargo such as clothing, non-perishable food, electronics, construction materials and much more.

Dry van maximum freight dimensions

- Max length 12 ft. - 26 ft.
- Max width 6 ft. - 7.5 ft.
- Max height 7 ft.
